

Timber sourcing made easier

Last update: 28/09/2018

KUALA LUMPUR, Sept 28 (Bernama) – The Malaysian Timber Council (MTC) recently organised its ‘Overseas Suppliers-Malaysian Importers or Manufacturers Exchange’ programme at the MTC headquarters, here, to further assist the industry in augmenting the supply of timber raw materials.

MTC, in a statement today, said the council has been facilitating members of the local timber industry to identify new sources of raw material supply since 1993.

Sourcing of raw materials and business missions have been mounted to countries like Laos, Cambodia, Thailand, China, Canada, Indonesia, Brazil and New Zealand, as well as Sabah and Sarawak.

MTC chief executive officer, Richard Yu, said: “The programme is part of our continuing efforts and serves as a platform for business-matching sessions between Malaysian importers as well as manufacturers with overseas suppliers.
