

Timber industry to rope in engineering grads under placement programme - Borneo Post Online

March 05, 2021

"The programme will boost graduate marketability and strengthen the development and innovations of the timber industry," he told reporters after witnessing the signing of a Memorandum of Understanding (MoU) between MTC, timber associations and higher learning institutions for the programme." The timber industry, Malaysia's third-largest commodity sub-sector, achieved good export performance last year, at RM22.1 billion at a time the country is facing the COVID-19 pandemic. It represents 14 per cent of the total commodity exports and 2.2 per cent of the nation's total export goods. <https://www.theborneopost.com/2021/03/03/timber-industry-to-rope-in-engineering-grads-under-placement-programme/> PUTRAJAYA: The timber industry will obtain the services of engineering graduates from local universities under the 2021 Timber Industry Engineer Placement and Internship Programme. Plantation Industries and Commodities Minister Datuk Dr Mohd Khairuddin Aman Razali said the programme, which will invo...-DRTAKIRI 3/5/2021, 4:41:34 PM
