

The partnership of World Agroforestry Centre (ICRAF), Centre for International Forestry Research (CIFOR), The World Conservation Union (IUCN), World Wildlife Fund for nature (WWF), Research Centre for Forest Ecology and Environment (RCFEE)

WELCOME YOU TO THE BOOK
LAUNCHING
“Payment for Environmental
Services: Experiences and
Lessons in Vietnam”

World Agroforestry Centre

- The PES (Payment for Environmental Services) concept and its application have gained increasing attention in Asia during the last 10 years.
- In Việt nam, the VN government recently approved for MARD in piloting the mechanism payment for ecosystem services in Son La and Lam Dong.
- In the process of PES development, there are considerable contributions from Winrock International, ICRAF, CIFOR, WWF, IUCN, and RCFEE.

World Agroforestry Centre

Objectives of the PES booklet

- To meet the increasing need to coordinate and disseminate our PES work in Vietnam.
- The booklet has been published in both English and Vietnamese to reach out to Vietnam's policy makers as well as a wider group of stakeholders

World Agroforestry Centre

Agenda

Two parts:

1. Introduction of the booklet (30')
